Subject: RE: Deschutes Slides
Attachments: Deschutes-Number of Samples by Station and Year.docx

Hi Miranda,

EIM settled down and I was able to retrieve most of the data. See attached. This is not a final inventory as we have more cross-checking to complete, but may be useful for the meeting if someone asks whether or not you have something. There are some continuous data that are summarized in EIM, but I have not found a way to retrieve them. Let me dig a little more to see if I can uncover another method, but, if not, we may need to ask ECY (although I know this will not make them happy!).

Thanks, Amy

Oh no! Ok, thanks for trying. I'll still plan to ask everyone if they know of any other sources, and will let you know how it goes.

Also, I modified the slides quite a bit, so the ones I sent are out of date. Attaching the new ones, just FYI.

Thanks, Miranda. I'm trying to get some more info on the monitoring data, but EIM has been crashing. I'll keep trying!

Hi Amy,

Here are the slides for the meeting I was telling you about on Friday. I still have some editing and formatting to add, but this is basically the content of what I planned to go over.

Thanks!
